

Glitch Features & Projects

Creating New Projects

- 'New Project' creates a starter app with a single view + simple features.
- 'Remix this' duplicates the current project- which can be evolved in a different direction.
- 'Switch Project' opens another project instead of the one you are currently viewing.
- You work on one project at a time.
- You can lock your code also.

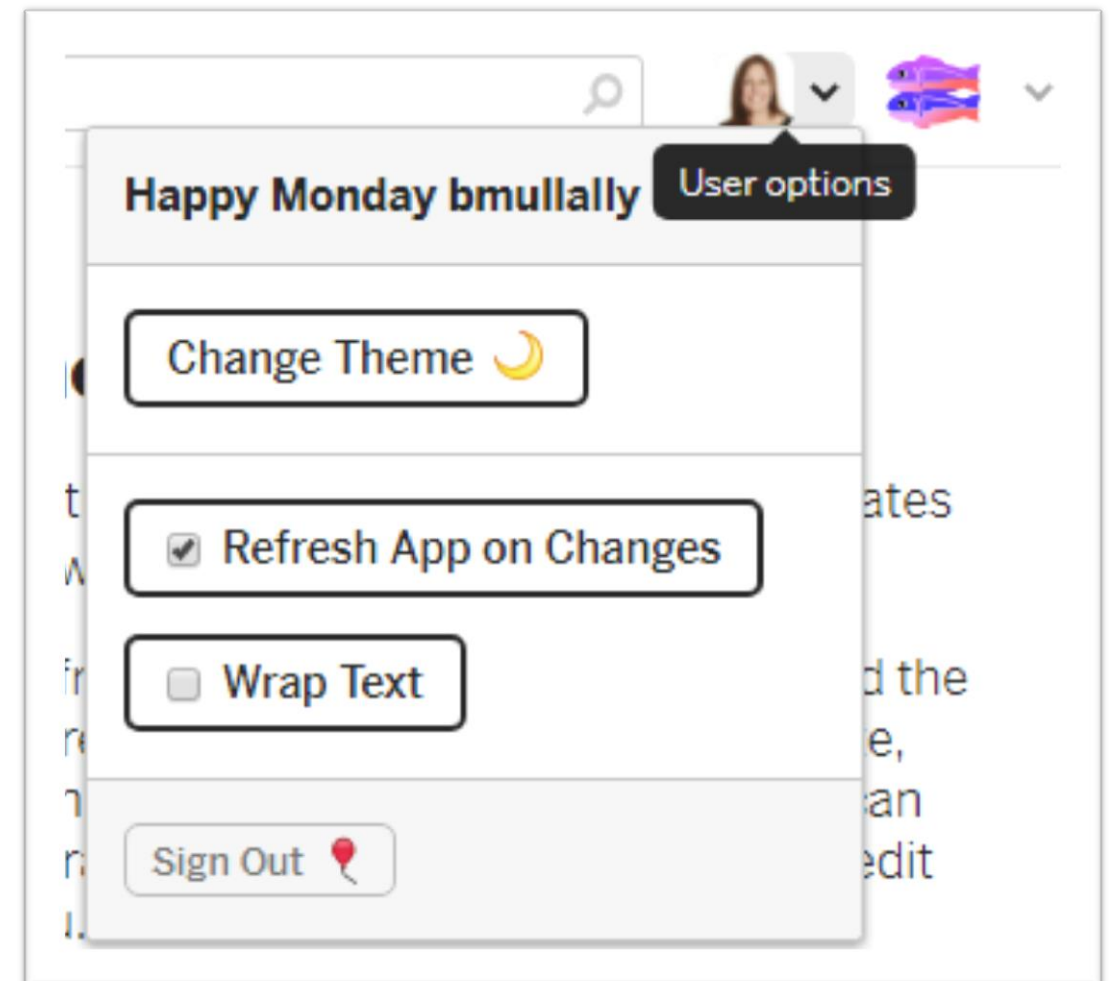

Advanced Options

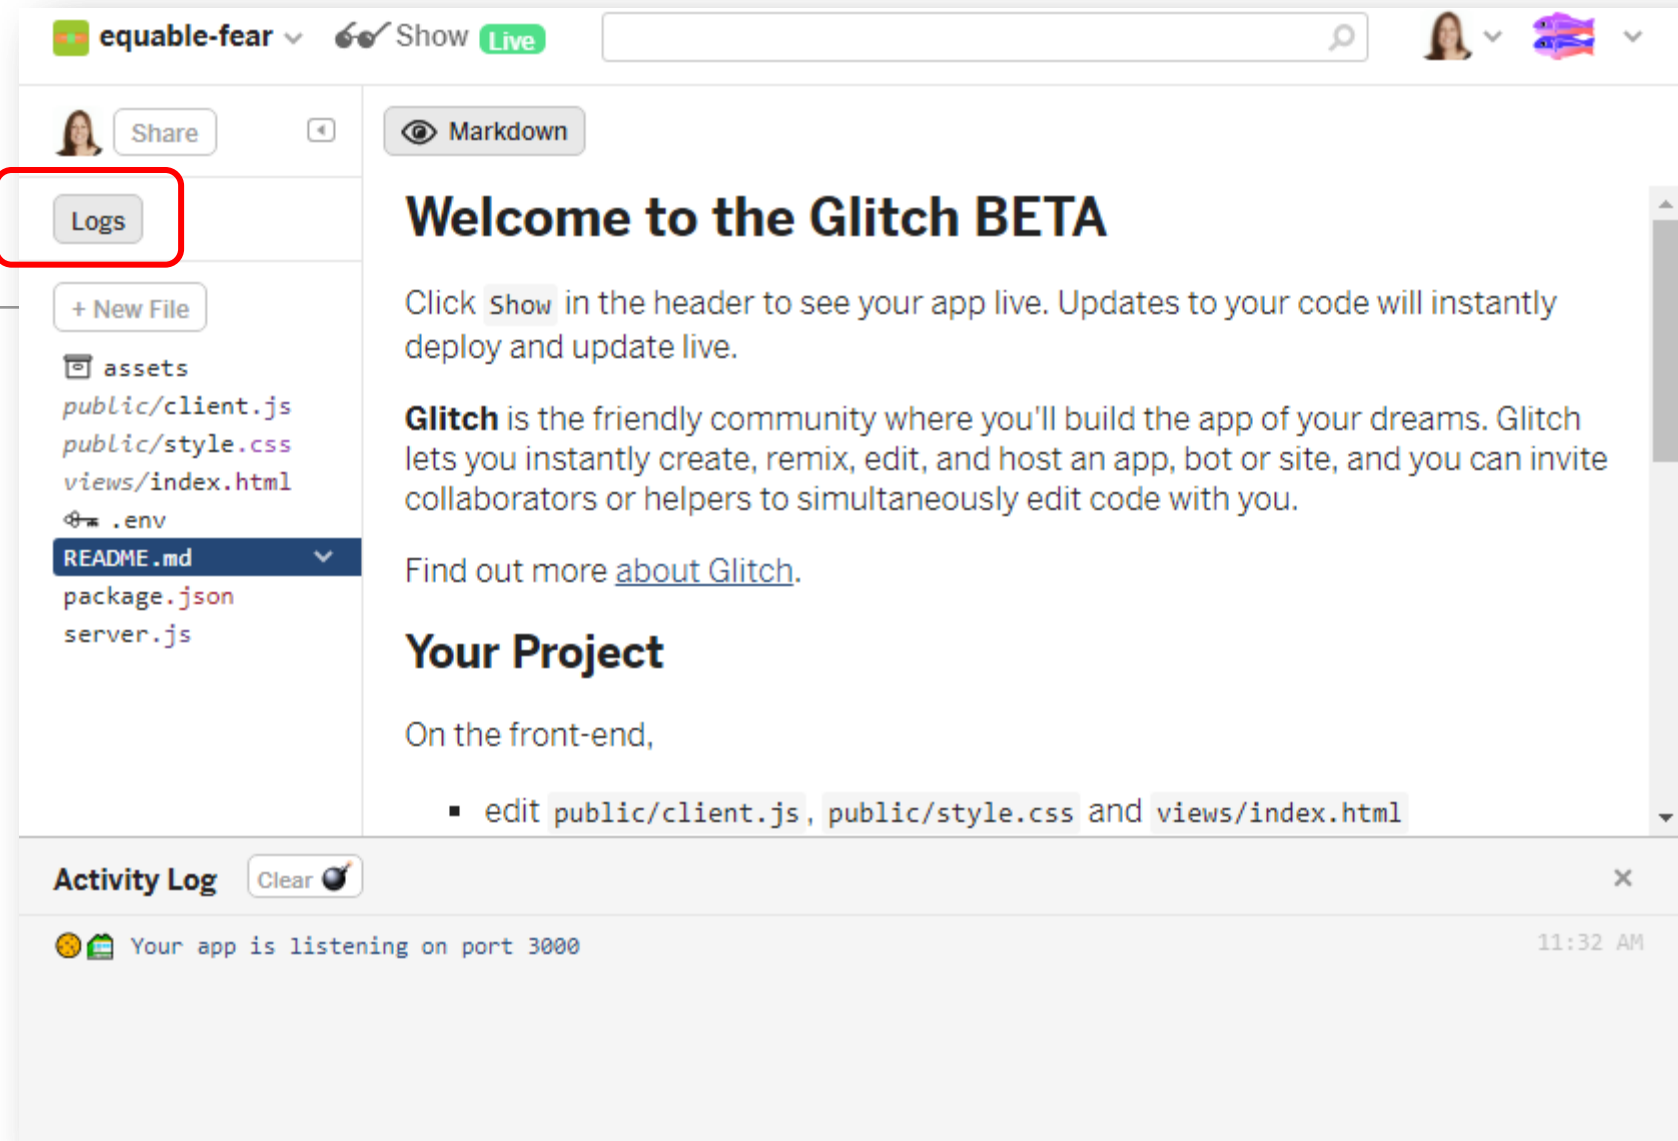

Profile

- Profile tied to your github account.
- Project updated 'live' as you edit, unless you change this option.

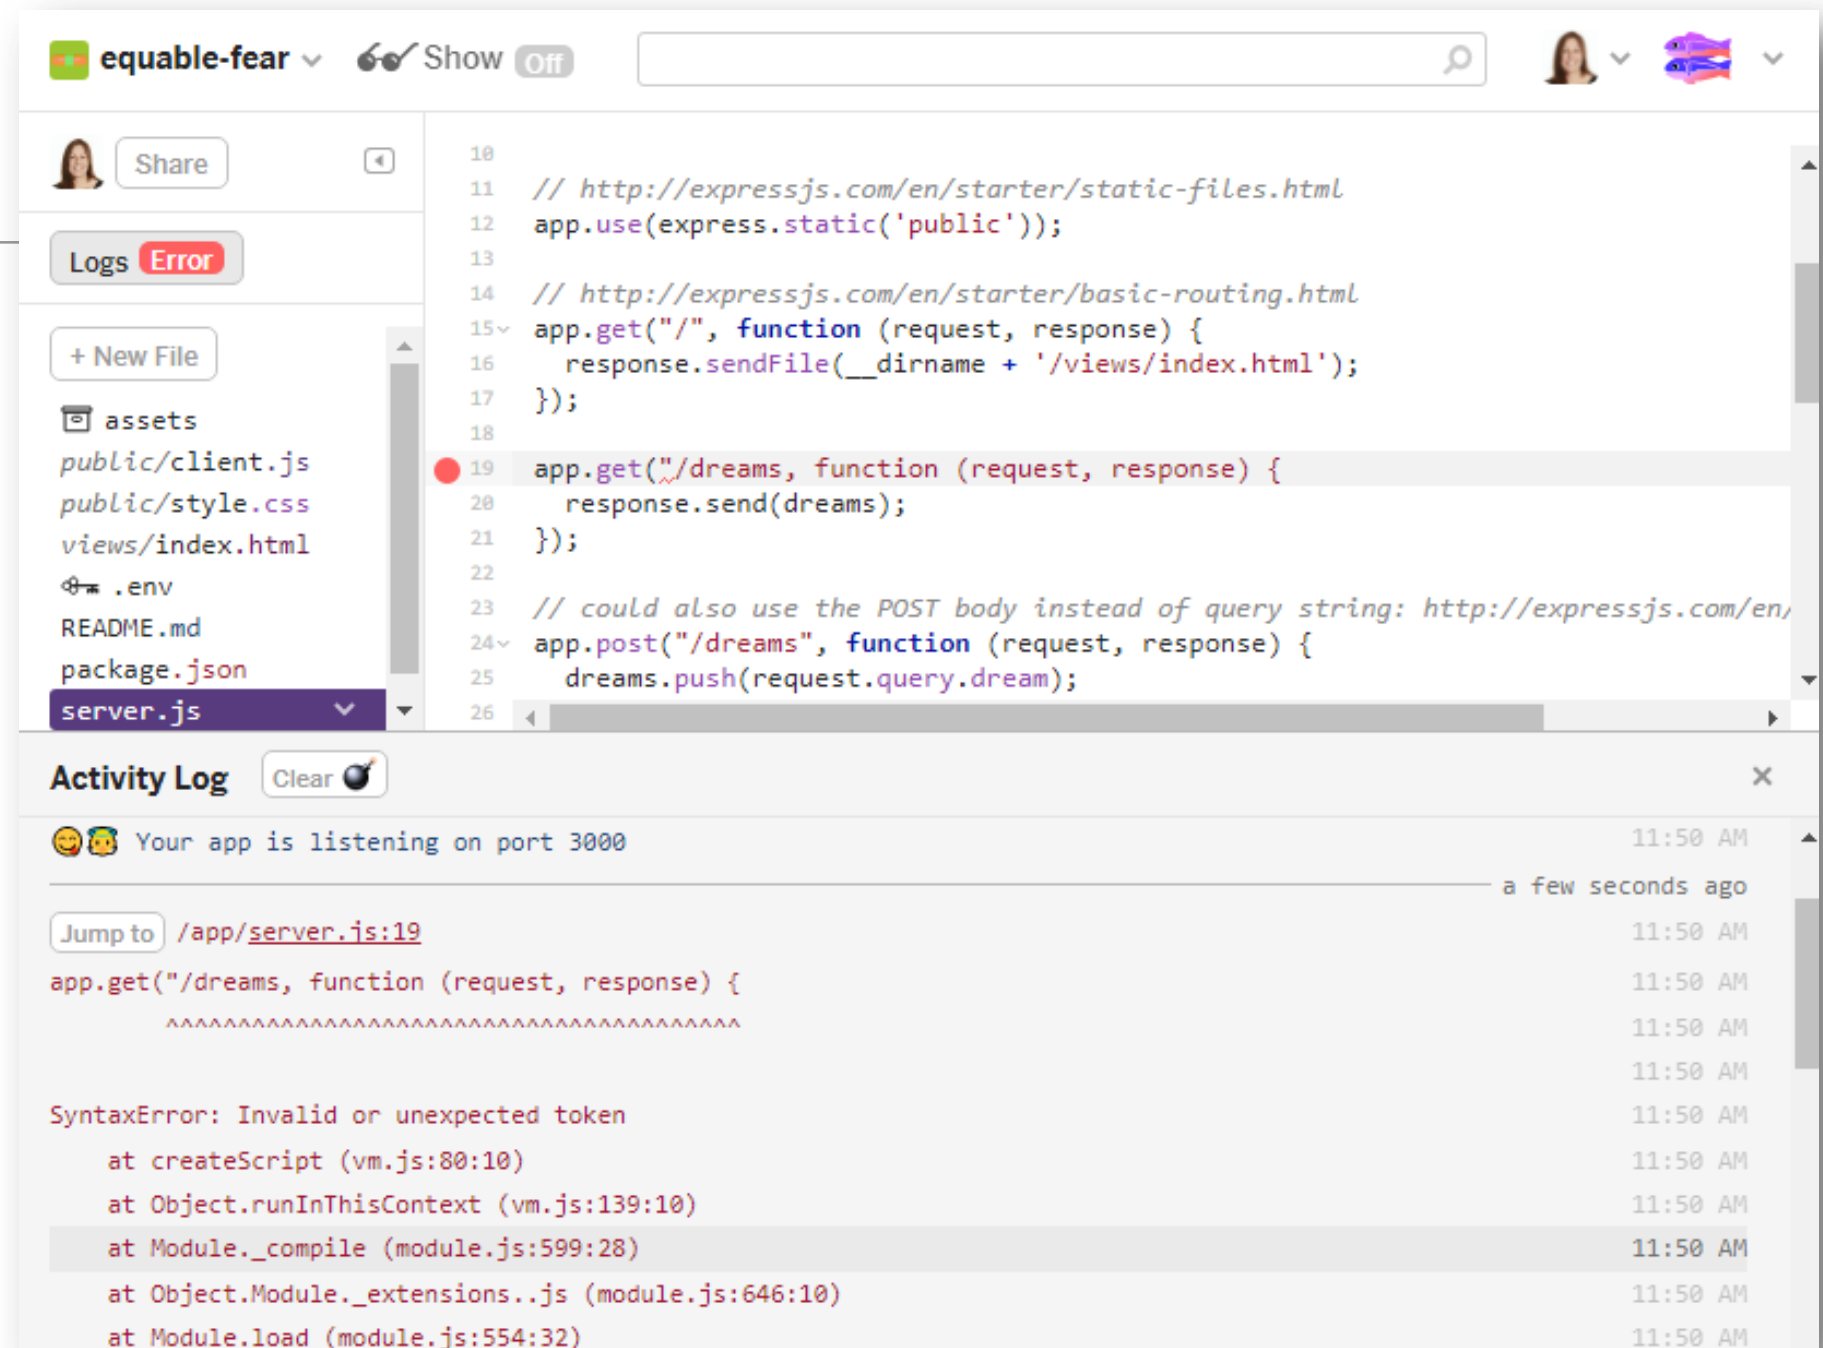

Logs

- Logs allow you to monitor the app.
- App can write to this log - can be a useful source of diagnostic information.

- Syntax errors in back-end JavaScript reported here.

- Syntax errors in back-end JavaScript reported here.
